

Things to consider when choosing a legal entity's name

The process of choosing and verifying the legal entity's name may seem simple, but in practice there are many disputes and appeals to the courts.

So you should pay attention to the names and do not choose a name that is similar and confusing the names already registered.

Please note that disputes over the assigned name are resolved by the court and the "last name obtained" is revoked if it is found to be inconsistent, similar, or misleading.
