

ДРОН ШОУ
DRONE SHOW MONGOLIA

UPGRADE YOUR EVENT.
OWN THE SKY.

PREPARATION TIMELINE:

BEFORE PERFORMANCE

— **4** weeks before

PROJECT DISCUSSION

Location, time, number of drones, and other conditions are discussed. Permits are obtained depending on the location.

— **2-3** weeks before

FLIGHT SCENARIO

Music, color selection, shapes, and motion programming.

— **3-4** days before

EQUIPMENT & TEAM

Pre-show preparation of equipment and team members.

— **1-2** days before

SHOW REHEARSAL

Full-scale test flight.

Show Duration:

The performance lasts approximately 10–13 minutes.

Number of Shapes:

Each show can display 10–13 formations/shapes.

Preparation Note:

To meet the schedule, it is recommended to confirm and prepare at least 30 days in advance.

Service Price:

Price starts from **550,000₮** per drone unit.

Additional Info:

The more drones used, the denser and clearer the visuals appear.

Special Conditions:

If weather conditions do not allow flying, the show will be rescheduled.

TECHNOLOGY:

AIR FORCE aerial drones typically operate at an altitude of **40–150 meters above ground level**, creating unique multi-dimensional visual experiences in the sky. By utilizing advanced programming, they seamlessly combine technology with artistic and cultural expressions, delivering visually striking performances.

The drones are equipped with **flight-standard compliant technology** and connect to **20–25 satellites during each flight**, enabling precise positioning and smooth transitions between formations.

This technology provides a **fully integrated solution** covering the entire operation—from takeoff to landing. It ensures optimal spacing between drones, collision avoidance for maximum safety, accurate formation rendering, and synchronized movement of complex visual patterns in the sky.

DRONE SHOW

НААДАМ 2022

Drone Show for the Closing Ceremony of the National Naadam Festival

We successfully delivered the closing ceremony of the National Naadam Festival, held in celebration of the anniversaries of 2230 & 2231 years of the Mongolian Statehood, 815 & 816 years of the Great Mongol Empire, 110 & 111 years since the restoration of national independence, and 100 & 101 years of the People's Revolution.

The core spirit and symbolism of Naadam were expressed through artistic drone formations and advanced technological solutions, accompanied by ceremonial fireworks and a synchronized drone show.

LOCATION: Ulaanbaatar City, Central Stadium

DRONE SHOW

O&S WEDDING

On July 1, 2022, we successfully organized a breathtaking aerial drone show dedicated to creating a lifelong cherished memory for a wedding couple.

Project Highlight:

The show was presented as a surprise gift from the groom to the bride, featuring a 15-minute fully integrated performance designed for both the couple and their guests.

Preparation Phase:

To accurately capture the story and visual concept of the project, we carried out over one month of detailed planning and preparation, ensuring execution at the highest quality standard.

Location: Ulaanbaatar City, Sky Resort

DRONE SHOW

THANK YOU REAL HEROES

During the COVID-19 pandemic, we successfully organized a drone light show of appreciation dedicated to frontline workers - doctors, police officers, and emergency service personnel - initiated by BRB Media Group.

Execution:

The performance featured 200 drones, operating at an altitude of 150 meters, delivering a synchronized aerial display.

Significance:

This project was Mongolia's first large-scale gratitude drone show, executed in line with international standards, with the purpose of expressing support and appreciation to the "True Heroes" working on the frontlines.

Location & Date: October 28, 2021 | Ulaanbaatar, Chingeltei District, School No. 57

For the opening ceremony of the “**Digital Nation 21**” event, the AIR FORCE team successfully delivered Mongolia’s first large-scale drone light show.

Execution:

A total of 200 drones were deployed at an altitude of 100 meters, presenting 13 formations over a 15-minute performance.

Team:

A team of 10+ professionals worked intensively over 10 days to complete all preparations and ensure seamless execution.

Significance:

This project stands out as Mongolia’s first drone show to integrate national heritage and history with modern technology, creating a unique and innovative visual experience.

Location & Date: National Amusement Park | September 17–19, 2021
