

What happened last month?

October 2nd

Our 10th graders went on a trip together to the international children's camp 'Nairamdal' for 3 days from 11th to 13th of September. It was because the long awaited 'Gobi' program had been cancelled due to the covid-19 health guidelines. The trip started Friday morning and ended Sunday afternoon. Our high school social worker Ms. Nasanburmaa, education manager Ms. Narantsetseg and the teachers of 10th grade had worked on organizing the activities that were held there such as an arts festival, sport games and activities established by the teams. The students were divided into 3 teams under the names of 'Tuya', 'Sansar' and 'Solongo'. Each and every student had their own thoughts and experiences and the trip had wonderful impacts on their memories.

The 11th graders had an event called 'Torgon Hil' where they got to learn more about the military which is in charge of guarding the border of Mongolia. They went to Erdene, Dornogovi for 3 days from the afternoon of the 24th to the morning of the 27th of September. Spending about 22 hours going back and forth on the train, the students arrived at the destination at around 4am where they were warmly welcomed by the military class 0129 and were divided into 4 groups. The first day, they attended the opening ceremony organized by the military soldiers, and then went to see the border column where in between they stopped to climb the 'Ulaan Uul' mountain to take a picture. In the evening, they put on a show and dance together. The second day was filled with watching a movie; 'Mash Nuuts 2: Baitag Bogd', and learning about the military life, weapons, armours and training. Later in the day, 10 students were volunteered from each group to participate in a competition run by the military class. Overall, these events play huge roles in our social lives, inventing memories, experiences, friendships, hardships and help educate us in indifferent ways. Thank you to the school administrators for organizing them.

Tips for improving your grades

1. Pay more attention in class and ask questions.

Asking questions is a key element in the learning process.

2. Get organized.

Make a study schedule. Start thinking about time management and prioritize your time effectively. Also, keep your workspace tidy.

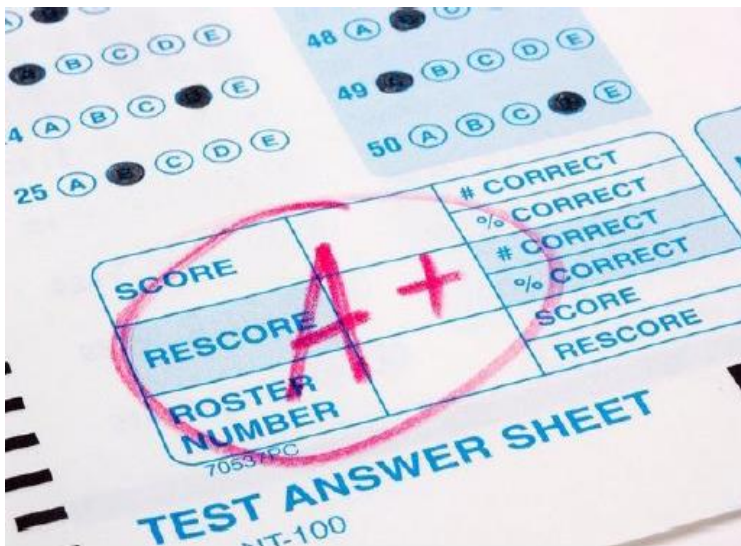

3. Ask for help.

Talk to your teachers. Ask them where they think you need to improve.

4. Do your homework on time.

Start from the hardest part. We always put off tasks that seem challenging but It's easier if you do them at first.

5. Keep away from distractions and get enough sleep.

How to not get distracted?

- Begin building habits that help you stay focused. Start by creating an environment in which you're less distracted. Close the door, turn off your phone or put it on silent and move it away from you.
- Set three goals every day. A long list of things to do can leave us overwhelmed. We're ready to give up before we start, and that's when it becomes easy to give in to distractions. By limiting the number of daily goals, you'll have clearly defined what you need to work on. Ask yourself every morning: What are the three most important things that I have to do today?
